**Conformance Theme**

- The map was compiled to conform with USGS USGS 7.5-minute quadrangle standards. USGS 7.5-minute quadrangle standards are the 1:24,000-scale (customary units) quadrangles that are the smallest size that permit a practical and useful account of the topography and natural features of the terrain. Each map is produced on paper with the quadrangle number in the title and on the map. The map was produced to conform with version 0.5.10 of the draft USGS Standards for 7.5-Minute Quadrangle Maps. A metadata file associated with this product is also draft version 0.5.10.
